

## **REPORT OF CABINET**

(Meeting held on 1 August, 6 September and 3 October 2001)

### **1. IMPLEMENTING ELECTRONIC GOVERNMENT STATEMENT (REPORT A) (MINUTE NO. 4)**

In March 2001 the DTLR had published two documents outlining their plans for Local Government On line and Local e-Government targets. Every Council was required to produce an Implementing Electronic Government (IEG) statement by 31 July 2001.

Members noted that the statement had been produced and submitted on time and that good progress was being made on implementing the Electronic Governance Strategy. Initial analysis showed that the Council was on course for 50% of interactions with the public to be supported electronically by 2002. The Electronic Governance Team was confident that the Council would meet the Government's targets for 100% electronic service delivery by 2005.

### **2. AUDIT OF COUNCIL BUILDINGS – DISABILITY DISCRIMINATION ACT – IMPLEMENTATION FOR 2004 (REPORT B) (MINUTE NO. 5)**

The Cabinet considered a report detailing the implications for Council buildings with public access arising from the implementation of legislation in 2004.

It was noted that the majority of the works required had been and would continue to be carried out as part of the corporate buildings planned maintenance programme. Whilst there was additional funding of £20,000 in the capital programme it was noted that there would be pressure on budgets, particularly in the leisure area, to comply with the legislation within the required timescale.

The Cabinet agreed that the necessary works arising from the Audit of Council Buildings be supported for inclusion in the expenditure plans and; that services be encouraged to identify and undertake other necessary works to ensure compliance.

### **3. CAPITAL STRATEGY AND ASSET MANAGEMENT PLAN 2001 (REPORT D) (MINUTE NO. 7)**

The Cabinet considered a report setting out a Capital Strategy and Asset Management Plan. The document had been developed corporately through the Asset Management Group involving full participation and consultation with directorate representatives.

It was agreed that it would be useful for the Finance and Support Portfolio Holder to be invited to attend meetings of the Asset Management Group in future. It was also agreed that, in future, the Council's list of assets should indicate which were leasehold and which were freehold.

#### ***RECOMMENDED:***

**4. FINANCIAL SUPPORT FOR VOLUNTARY AND NOT FOR PROFIT ORGANISATIONS (REPORT F) (MINUTE NO. 9)**

The Cabinet considered a report reviewing the way in which financial support to voluntary and non profit making organisations was provided and proposing a framework and process that would achieve a degree of consistency in approach.

In particular members noted that the policy framework for the discretionary element of non domestic rate relief would also be reviewed. This would ensure that there was consistency between grant allocations and discretionary rate relief. It was agreed that a further report would be made to the Cabinet on this aspect of the review.

**RECOMMENDED:**

***That all non service specific and core funding grants be combined with effect from 31 March 2002 within the Leisure Portfolio.***

## **9. IMPLEMENTATION OF CCTV (REPORT O).**

The Cabinet noted with pleasure that the Council had been successful in its bid for government funding for the implementation of CCTV within the district. The Government Office - South East (GOSE) had made a formal offer of £975,000, which was the maximum 85% grant available, towards the installation of CCTV in Ringwood, Totton and Lymington town centres and the provision of a Control Centre at Appletree Court, Lyndhurst.

Provision of £172,000 had been made in the Capital Programme 2001/02, which would be reduced by contributions from other organisations including town and parish councils. Annual revenue running costs were estimated at £240,000 from 2002/2003 but these would also be reduced by contributions from other organisations.

Members noted that a supplementary estimate of £45,000 would be needed in 2001/2002 to enable employees to be recruited and trained in advance of the system going live.
