

GENERAL PURPOSES AND LICENSING COMMITTEE – 16 NOVEMBER 2012

GAMBLING ACT 2005 – STATEMENT OF PRINCIPLES (GAMBLING POLICY) FOR 2013 - 2016

1. INTRODUCTION

- 1.1 Section 349 of the Gambling Act 2005 requires Licensing Authorities to produce a three year Statement of Principles (Gambling Policy). The current policy expires on 31 January 2013. The General Purposes and Licensing Committee must now consider the replacement policy to be presented to the next full Council.

2. BACKGROUND

- 2.1 The original Statement of Principles was published in accordance with the regulations to cover the period from 31 January 2007 to 31 January 2010. This was replaced by the current policy which covers the following three year period, 31 January 2010 to 31 January 2013.
- 2.2 All reviews of the policy should duplicate the original process and also take into account and reflect any developments or trends at both local and national levels. A twelve week consultation period for the review of the current policy has been undertaken. This commenced on 2 July 2012 and ended on 22 September 2012.
- 2.3 Licensing Services have not received any adverse comments, representations or recommendations for changes during the consultation period. Apart from some necessary grammatical and basic format changes the policy document content is otherwise unchanged.

- # 2.4 The updated Statement of Principles is attached as **Appendix 1**.

3. FINANCIAL IMPLICATIONS

- 3.1 Any financial implications arising from this report should be covered by gambling fees and charges.

4. ENVIRONMENTAL, CRIME & DISORDER, EQUALITY & DIVERSITY IMPLICATIONS

- 4.1 There are no environmental, crime & disorder or equality & diversity implications directly arising from this report.

5. CONCLUSION

- 5.1 The proposed updated Statement of Principles to cover the period 31 January 2013 to 31 January 2016 is presented to the General Purposes & Licensing Committee so that:
- I. It can be agreed by full Council for publication at least 4 weeks before 31 January 2013.

- II. Details of the policy can be advertised as required by the legislation at least two weeks prior to publication.

6. RECOMMENDATIONS

- 6.1 That the Committee consider the policy for 2013 – 2016 and make recommendations to the next full Council for its adoption.

NEW FOREST DISTRICT COUNCIL
GAMBLING ACT 2005
SECTION 349

Statement of Principles

The contents of this document are provided as information on the policy and principles of New Forest District Council in carrying out its functions in relation to the regulation of gambling. The document is not a full and authoritative statement of the law or statutory guidance and does not constitute professional or legal advice.

The Statement of Principles as determined by New Forest District Council in respect of its licensing functions in relation to the Gambling Act 2005 for the three year period commencing 31 January 2013 is set out in this document. During the three year period, the document will be kept under regular review and, following a full consultation process, the Council will make such revisions to it, at such times, as it considers appropriate.

Further statements of principles will be published every three years thereafter.

All references to the Guidance refer to the Gambling Commission's Guidance to Licensing Authorities, 3rd Edition, published May 2009.

Advertising

Before publishing a statement or revision, New Forest District Council will publish a notice of their intention to do so, no less than two weeks before the statement or revision is to be published. The notice will:

- a) specify the date on which the statement or revision is to be published;
- b) specify the date on which the statement or revision will come into effect;
- c) specify the internet address where the statement or revision will be published and the address of the premises at which it may be inspected; and
- d) be published on the authority's website and in/on one or more of the following places:
 - A local newspaper circulating in the area covered by the statement;
 - A local newsletter, circular, or similar document circulating in the area covered by the statement;
 - A public notice board on or near the principal office of the authority;
 - A public notice board on the premises of public libraries in the area covered by the statement.

Publication

This statement or any subsequent revision of the statement will be published on the New Forest District Council website (www.nfdc.gov.uk). The statement or any subsequent revision of the statement is also available for inspection at the following locations:

New Forest District Council Offices at Appletree Court, Lyndhurst,

New Forest District Council Offices at Lymington

New Forest District Council Information Centres

Declaration

In publishing this document, New Forest District Council has had regard to the licensing objectives of the Gambling Act 2005 (the Act), the guidance issued by the Gambling Commission and any responses from those consulted on the policy statement.

Operating licences and personal licences are issued and regulated by the Gambling Commission whilst local authorities are responsible for the issue and regulation of premises licences, and other permits.

The Act places responsibilities on licensing authorities in ways similar to the Licensing Act 2003. There are some interdependencies between the Licensing Act 2003 and the Gambling Act 2005 in terms of the framework for decision making and the procedures that must be followed. However New Forest District Council will take care to ensure that in dealing with applications under the Gambling Act they follow the procedures that the Gambling Act 2005 requires and only take into account issues that are relevant to that Act. Care will be taken not to confuse Gambling Act considerations with those relevant to alcohol licensing or planning.

When using this document, reference should also be made to the Gambling Act 2005, any associated regulations and any guidance and advice issued by the Gambling Commission or the Department of Culture, Media and Sport and information contained on the New Forest District Council web site (www.newforest.gov.uk)

PART A

The Licensing Objectives

In exercising most of their functions under the Gambling Act 2005, licensing authorities must have regard to the licensing objectives as set out in section 1 of the Act. The licensing objectives are:

- Preventing gambling from being a source of crime or disorder, being associated with crime or disorder or being used to support crime
- Ensuring that gambling is conducted in a fair and open way
- Protecting children and other vulnerable persons from being harmed or exploited by gambling

It should be noted that the Gambling Commission has stated: "The requirement in relation to children is explicitly to protect them from being harmed or exploited by gambling".

This licensing authority is aware that, as per Section 153, in making decisions about premises licences and temporary use notices it should aim to permit the use of premises for gambling in so far as it thinks it:

- in accordance with any relevant code of practice issued by the Gambling Commission
- in accordance with any relevant guidance issued by the Gambling Commission
- reasonably consistent with the licensing objectives and
- in accordance with the authority's statement of licensing policy

Introduction to New Forest District Council area

The New Forest is situated in the south west corner of the County of Hampshire, between the urban areas of Southampton and Bournemouth and bounded by the Solent. One of the most striking features of the Forest is the open expanse of semi-natural vegetation at its heart with much of the open forest owned and cared for by the Forestry Commission, working in conjunction with a wide range of other statutory bodies and interest groups. The New Forest has National Park status. There is also a network of small and attractive towns and villages throughout the area.

Tourism is a major part of the local economy and every year approximately 22 million visits are made to the area. Many people come on a regular basis to enjoy the freedom and tranquillity of the forest area.

The New Forest faces many challenges if its special character is not to be eroded by the modern day pressures of people, housing, industry and traffic. It has a number of premises conducting gambling activities as follows:

15 betting offices

1 entertainment centre

Approximately 600 alcohol licensed premises

Approximately 50 members clubs

At the time of publication there are no bingo halls, tracks or casinos within the New Forest District Council area.

The Council recognises that legal gambling in a fair and open way, with suitable protection for vulnerable persons, is an important part of the district and contributes to the local economy and attention is drawn to the section 'Fundamental Principles' regarding demand, objections and locations for any application for gambling premises.

Consultation on the statement of principles

New Forest District Council consulted the following on this statement:

- The Chief Officer of Police for Hampshire;
- One or more persons who appear to the authority to represent the interests of persons carrying on gambling businesses in the New Forest area
- One or more persons who appear to the authority to represent the interests of persons who are likely to be affected by the exercise of the authority's functions under the Act
- Responsible authorities

A full list of consultees can be obtained from Licensing Services, New Forest District Council

New Forest District Council will also consult the above for any subsequent revision of the statement

In determining its policy, New Forest District Council will always:

- Have regard to the Gambling Commission Guidance to Licensing Authorities
- Give appropriate weight to the views of those it has consulted

In determining what weight to give to particular representations on its statement, the factors taken into account will always include:

- Who is making the representation in terms of their expertise or interest;
- What their motivation may be for their views;
- How many other people have expressed the same or similar views;
- How far the representations relate to matters that the licensing authority should be including in its policy statement

It will be for New Forest District Council to ensure that it looks at the views of consultees and considers carefully whether they should be taken into account, and to what extent (having regard to the above factors). New Forest District Council will always give reasons for the decisions it has made following consultation, details of which can be viewed on the New Forest District Council web-site or by contacting the Licensing Section at Appletree Court, Lyndhurst.

The consultation process took place between 2 July 2012 and 21 September 2012.

The full list of comments made and the consideration by the Council of those comments is available by request to Licensing Services via: licensing@nfdc.gov.uk

Fundamental Considerations

In carrying out its functions, New Forest District Council will regulate gambling in the public interest and will have regard to the guidance issued under section 25 of the Act. With the exception of premises licensing and temporary use notices, New Forest District Council may use its discretion where there are strong and defensible reasons for departing from the guidance, and New Forest District Council consider it right to do so. In any such case New Forest District Council will clearly express and explain its reasons for doing so.

This statement of policy does not override the right of any person to make an application under the Act and to have that application considered on its merits. Additionally, this statement of policy does not undermine the right of any person to make representations on an application or to seek a review of a licence where provision has been made for them to do so.

The policy will not comment on the need for gambling premises. Unmet demand is not a criterion in considering an application for a premises licence, and each application will be considered on its merits without regard to demand.

The location of premises will only be commented on in so far as the location relates to the licensing objectives. New Forest District Council will consider very carefully applications for premises licences, permits and other authorities in respect of certain gambling premises that are located close to:

- Schools and young persons establishments
- Young offenders premises
- Centres established for assisting persons with a gambling addiction
- Vulnerable adult centres
- Residential areas where there are a high concentration of families with children

Each application will be considered on its merits, and will depend to a large extent on the type of gambling that it is proposed will be offered on the premises. If an applicant for a premises licence can show how licensing objective concerns can be overcome, that will be taken into account when reaching a decision on whether or not to grant a licence.

Moral objections to gambling will not be a reason to reject an application for premises licences. In rejecting an application, New Forest District Council will rely on reasons that demonstrate that the licensing objectives are not being met.

Responsible authorities and interested parties

When dealing with applications for and reviews of premises licences, New Forest District Council is obliged to consider representations from two categories of persons, referred to as “**responsible authorities**” and “**interested parties.**” (It should be noted that these are defined differently to those defined in the Licensing Act 2003). Representations made by persons other than responsible authorities or interested parties will be inadmissible.

New Forest District Council will only consider representations that are relevant, which are likely to be those that relate to the licensing objectives, or that raise issues under this policy statement, or the Commission’s guidance or codes of practice (i.e. those matters mentioned in section 153 of the Act).

New Forest District Council will examine closely all representations to ensure that they are not frivolous or vexatious, which will include:

- Who is making the representation, and whether there is a history of making representations that are not relevant;
- Whether it raises a ‘relevant’ issue; or
- Whether it raises issues specifically to do with the premises that are the subject of the application.

“**Responsible authorities**” are public bodies that must be notified of applications by the applicant. The full list and contact details are contained on the New Forest District Council web-site or can be provided by New Forest District Council Licensing Services.

New Forest District Council is required by regulations to state the principles it will apply in exercising its powers under Section 157(h) of the Act to designate, in writing, a body which is competent to advise the authority about the protection of children from harm. The principles are:

- the need for the body to be responsible for an area covering the whole of the licensing authority’s area; and
- the need for the body to be answerable to democratically elected persons, rather than any particular vested interest group.

In accordance with the suggestion in the Gambling Commission’s Guidance to Licensing Authorities, this authority designates the Local Safeguarding Children Board for this purpose.

The contact details of all the Responsible Authorities under the Gambling Act 2005 are available via the Council’s website at: www.newforest.gov.uk

Interested parties

Interested parties can make representations about licence applications, or apply for a review of an existing licence. These parties are defined in the Gambling Act 2005 as follows:

“For the purposes of this Part a person is an interested party in relation to an application for or in respect of a premises licence if, in the opinion of the licensing authority which issues the licence or to which the applications is made, the person:

- a) lives sufficiently close to the premises to be likely to be affected by the authorised activities,
- b) has business interests that might be affected by the authorised activities, or
- c) represents persons who satisfy paragraph (a) or (b)”

The licensing authority is required by regulations to state the principles it will apply in exercising its powers under the Gambling Act 2005 to determine whether a person is an interested party. The principles are:

Each case will be decided upon its merits. This authority will not apply a rigid rule to its decision making. It will consider the examples of considerations provided in the Gambling Commission's Guidance to Licensing Authorities at 8.11 to 8.18. It will also consider the Gambling Commission's Guidance that "has business interests" should be given the widest possible interpretation and include partnerships, charities, faith groups and medical practices.

Interested parties can be persons who are democratically elected such as councillors and MP's. No specific evidence of being asked to represent an interested person will be required as long as the councillor / MP represents the ward likely to be affected. Likewise, parish councils likely to be affected will be considered to be interested parties. Other than these however, this authority will generally require written evidence that a person/body (e.g. an advocate / relative) 'represents' someone who either lives sufficiently close to the premises to be likely to be affected by the authorised activities and/or has business interests that might be affected by the authorised activities. A letter from one of these persons, requesting the representation is sufficient.

If individuals wish to approach councillors to ask them to represent their views then care should be taken that the councillors are not part of the Licensing Committee dealing with the licence application. If there are any doubts then please contact the licensing department licensing@nfdc.gov.uk

Exchange of Information

New Forest District Council is required to include in their statements the principles to be applied by the authority in exercising the functions under sections 29 and 30 of the Act with respect to the exchange of information between it and the Gambling Commission, and the functions under section 350 of the Act with the respect to the exchange of information between it and the other persons listed in Schedule 6 to the Act.

The principle that this licensing authority applies is that it will act in accordance with the provisions of the Gambling Act 2005 in its exchange of information which includes the provision that the Data Protection Act 1998 will not be contravened. The licensing authority will also have regard to any Guidance issued by the Gambling Commission on this matter, as well as any relevant regulations issued by the Secretary of State under the powers provided in the Gambling Act 2005.

Should any protocols be established as regards information exchange with other bodies then they will be made available.

Please contact the licensing department licensing@nfdc.gov.uk for further information on our protocols.

Compliance and Enforcement

Licensing authorities are required by regulation under the Gambling Act 2005 to state the principles to be applied by the authority in exercising the functions under Part 15 of the Act with respect to the inspection of premises; and the powers under section 346 of the Act to institute criminal proceedings in respect of the offences specified.

This licensing authority's principles are that it will be guided by the Gambling Commission's Guidance to Licensing Authorities and will endeavour to be:

- Proportionate: regulators should only intervene when necessary: remedies should be appropriate to the risk posed, and costs identified and minimised;
- Accountable: regulators must be able to justify decisions, and be subject to public scrutiny;
- Consistent: rules and standards must be joined up and implemented fairly;
- Transparent: regulators should be open, and keep regulations simple and user friendly; and
- Targeted: regulation should be focused on the problem, and minimise side effects.

As per the Gambling Commission's Guidance to Licensing Authorities this licensing authority will endeavour to avoid duplication with other regulatory regimes so far as possible.

This licensing authority has adopted and implemented a risk-based inspection programme, based on;

- The licensing objectives
- Relevant codes of practice
- Guidance issued by the Gambling Commission, in particular at Part 36
- The principles set out in this statement of licensing policy

The main enforcement and compliance role for this licensing authority in terms of the Gambling Act 2005 is to ensure compliance with the premises licences and other permissions which it authorises. The Gambling Commission is the enforcement body for the operating and personal licences. It is also worth noting that concerns about manufacture, supply or repair of gaming machines are not dealt with by the licensing authority but should be notified to the Gambling Commission.

This licensing authority also keeps itself informed of developments as regards the work of the Better Regulation Executive in its consideration of the regulatory functions of local authorities.

Bearing in mind the principle of transparency, this licensing authority's enforcement/compliance protocols/written agreements are available upon request to the licensing department licensing@nfdc.gov.uk. Our risk methodology is also available upon request.

New Forest District Council Functions

Licensing authorities are required under the Act to:

- Be responsible for the licensing of premises where gambling activities are to take place by issuing Premises Licences
- Issue Provisional Statements
- Regulate members' clubs and miners' welfare institutes who wish to undertake certain gaming activities via issuing Club Gaming Permits and/or Club Machine Permits
- Issue Club Machine Permits to Commercial Clubs
- Grant permits for the use of certain lower stake gaming machines at unlicensed Family Entertainment Centres
- Receive notifications from alcohol licensed premises (under the Licensing Act 2003) For the use of two or fewer gaming machines
- Issue Licensed Premises Gaming Machine Permits for premises licensed to sell/supply alcohol for consumption on the licensed premises, under the Licensing Act 2003, where there are more than two machines
- Register small society lotteries below prescribed thresholds
- Issue Prize Gaming Permits
- Receive and Endorse Temporary Use Notices
- Receive Occasional Use Notices
- Provide information to the Gambling Commission regarding details of licences issued (see section above on 'information exchange')
- Maintain registers of the permits and licences that are issued under these functions

It should be noted that licensing authorities are not involved in licensing remote gambling at all, which is regulated by the Gambling Commission via operating licences.

PART B

PREMISES LICENCES: CONSIDERATION OF APPLICATIONS

General Principles

Premises licences are subject to the requirements set-out in the Gambling Act 2005 and regulations, as well as specific mandatory and default conditions which are detailed in regulations issued by the Secretary of State. Licensing authorities are able to exclude default conditions and also attach others, where it is believed to be appropriate.

Decision-making

This licensing authority is aware that in making decisions about premises licences it should aim to permit the use of premises for gambling in so far as it thinks it is:

- in accordance with any relevant code of practice issued by the Gambling Commission;
- in accordance with any relevant guidance issued by the Gambling Commission;
- reasonably consistent with the licensing objectives;
and
- in accordance with the authority's statement of licensing policy.

It is appreciated that as per the Gambling Commission's Guidance to Licensing Authorities "moral objections to gambling are not a valid reason to reject applications for premises licences" (except as regards any 'no casino resolution' - see section on Casinos - page 24) and also that unmet demand is not a criterion for a licensing authority.

Definition of "premises" – In the Act, "premises" is defined as including "any place". Section 152 therefore prevents more than one premises licence applying to any place. But a single building could be subject to more than one premises licence, provided they are for different parts of the building and the different parts of the building can be reasonably regarded as being different premises. This approach has been taken to allow large, multiple unit premises such as a pleasure park, pier, track or shopping mall to obtain discrete premises licences, where appropriate safeguards are in place. However, licensing authorities should pay particular attention if there are issues about sub-divisions of a single building or plot and should ensure that mandatory conditions relating to access between premises are observed.

The Gambling Commission states in the third edition of its Guidance to Licensing Authorities that: "In most cases the expectation is that a single building / plot will be the subject of an application for a licence, for example, 32 High Street. But, that does not mean 32 High Street cannot be the subject of separate premises licences for the basement and ground floor, if they are configured acceptably. Whether different parts of a building can properly be regarded as being separate premises will depend on the circumstances. The location of the premises will clearly be an important consideration and the suitability of the division is likely to be a matter for discussion between the

operator and the licensing officer. However, the Commission does not consider that areas of a building that are artificially or temporarily separated, for example by ropes or moveable partitions, can properly be regarded as different premises.”

This licensing authority takes particular note of the Gambling Commission’s Guidance to Licensing Authorities which states that: licensing authorities should take particular care in considering applications for multiple licences for a building and those relating to a discrete part of a building used for other (non-gambling) purposes. In particular they should be aware of the following:

- The third licensing objective seeks to protect children from being harmed by gambling. In practice that means not only preventing them from taking part in gambling, but also preventing them from being in close proximity to gambling. Therefore premises should be configured so that children are not invited to participate in, have accidental access to or closely observe gambling where they are prohibited from participating.
- Entrances to and exits from parts of a building covered by one or more premises licences should be separate and identifiable so that the separation of different premises is not compromised and people do not “drift” into a gambling area. In this context it should normally be possible to access the premises without going through another licensed premises or premises with a permit.
- Customers should be able to participate in the activity named on the premises licence.

The Guidance also gives a list of factors which the licensing authority should be aware of, which may include:

- Do the premises have a separate registration for business rates
- Is the premises’ neighbouring premises owned by the same person or someone else?
- Can each of the premises be accessed from the street or a public passageway?
- Can the premises only be accessed from any other gambling premises?

This authority will consider these and other relevant factors in making its decision, depending on all the circumstances of the case.

The Gambling Commission’s relevant access provisions for each premises type are reproduced below:

7.25:

Casinos

- The principal access entrance to the premises must be from a street (as defined at 7.23 of the Guidance)
- No entrance to a casino must be from premises that are used wholly or mainly by children and/or young persons
- No customer must be able to enter a casino directly from any other premises which holds a gambling premises licence

Adult Gaming Centre

- No customer must be able to access the premises directly from any other licensed gambling premises

Betting Shops

- Access must be from a street (as per para 7.23 Guidance to Licensing Authorities) or from another premises with a betting premises licence
- No direct access from a betting shop to another premises used for the retail sale of merchandise or services. In effect there cannot be an entrance to a betting shop from a shop of any kind and you could not have a betting shop at the back of a café – the whole area would have to be licensed.

Tracks

- No customer should be able to access the premises directly from:
 - a casino
 - an adult gaming centre

Bingo Premises

- No customer must be able to access the premise directly from:
 - a casino
 - an adult gaming centre
 - a betting premises, other than a track

Family Entertainment Centre

- No customer must be able to access the premises directly from:
 - a casino
 - an adult gaming centre
 - a betting premises, other than a track

Part 7 of the Gambling Commission's Guidance to Licensing Authorities contains further guidance on this issue, which this authority will also take into account in its decision-making.

Premises "ready for gambling"

The Guidance states that a licence to use premises for gambling should only be issued in relation to premises that the licensing authority can be satisfied are going to be ready to be used for gambling in the reasonably near future, consistent with the scale of building or alterations required before the premises are brought into use.

If the construction of a premises is not yet complete, or if they need alteration, or if the applicant does not yet have a right to occupy them, then an application for a provisional statement should be made instead.

In deciding whether a premises licence can be granted where there are outstanding

construction or alteration works at a premises, this authority will determine applications on their merits, applying a two stage consideration process:-

- First, whether the premises ought to be permitted to be used for gambling
- Second, whether appropriate conditions can be put in place to cater for the situation that the premises are not yet in the state in which they ought to be before gambling takes place.

Applicants should note that this authority is entitled to decide that it is appropriate to grant a licence subject to conditions, but it is not obliged to grant such a licence.

More detailed examples of the circumstances in which such a licence may be granted can be found at paragraphs 7.59-7.66 of the Guidance.

Location - This licensing authority is aware that demand issues cannot be considered with regard to the location of premises but that considerations in terms of the licensing objectives are relevant to its decision-making. As per the Gambling Commission's Guidance to Licensing Authorities, this authority will pay particular attention to the protection of children and vulnerable persons from being harmed or exploited by gambling, as well as issues of crime and disorder. Should any specific policy be decided upon as regards areas where gambling premises should not be located, this statement will be updated. It should be noted that any such policy does not preclude any application being made and each application will be decided on its merits, with the onus upon the applicant showing how potential concerns can be overcome.

Planning - The Gambling Commission Guidance to Licensing Authorities states:
7.59 – In determining applications the licensing authority has a duty to take into consideration all relevant matters and not to take into consideration any irrelevant matters, i.e. those not related to gambling and the licensing objectives. One example of an irrelevant matter would be the likelihood of the applicant obtaining planning permission or building regulations approval for their proposal.

This authority will not take into account irrelevant matters as per the above guidance. In addition this authority notes the following excerpt from the Guidance:

7.66 - When dealing with a premises licence application for finished buildings, the licensing authority should not take into account whether those buildings have to comply with the necessary planning or building consents. Those matters should be dealt with under relevant planning control and building regulation powers, and not form part of the consideration for the premises licence. Section 210 of the 2005 Act prevents licensing authorities taking into account the likelihood of the proposal by the applicant obtaining planning or building consent when considering a premises licence application. Equally the grant of a gambling premises licence does not prejudice or prevent any action that may be appropriate under the law relating to planning or building.

Duplication with other regulatory regimes - This licensing authority seeks to avoid any duplication with other statutory / regulatory systems where possible, including planning. This authority will not consider whether a licence application is likely to be awarded planning permission or building regulations approval, in its consideration of it.

It will though, listen to, and consider carefully, any concerns about conditions which are not able to be met by licensees due to planning restrictions, should such a situation arise.

When dealing with a premises licence application for finished buildings, this authority will not take into account whether those buildings have to comply with the necessary planning or buildings consents. Fire or health and safety risks will not be taken into account, as these matters are dealt with under relevant planning control, buildings and other regulations and must not form part of the consideration for the premises licence.

Licensing objectives - Premises licences granted must be reasonably consistent with the licensing objectives. With regard to these objectives, this licensing authority has considered the Gambling Commission's Guidance to Licensing Authorities and some comments are made below.

Preventing gambling from being a source of crime or disorder, being associated with crime or disorder or being used to support crime - This licensing authority is aware that the Gambling Commission takes a leading role in preventing gambling from being a source of crime. The Gambling Commission's Guidance does however envisage that licensing authorities should pay attention to the proposed location of gambling premises in terms of this licensing objective. Thus, where an area has known high levels of organised crime this authority will consider carefully whether gambling premises are suitable to be located there and whether conditions may be suitable such as the provision of door supervisors. This licensing authority is aware of the distinction between disorder and nuisance and will consider factors (for example whether police assistance was required and how threatening the behaviour was to those who could see it) so as to make that distinction.

Ensuring that gambling is conducted in a fair and open way - This licensing authority has noted that the Gambling Commission states that it generally does not expect licensing authorities to be concerned with ensuring that gambling is conducted in a fair and open way as this will be addressed via operating and personal licences. *For Local Authorities with tracks:* There is however, more of a role with regard to tracks which is explained in more detail in the 'tracks' section— see page 27).

Protecting children and other vulnerable persons from being harmed or exploited by gambling - This licensing authority has noted the Gambling Commission's Guidance that this objective means preventing children from taking part in gambling (as well as restriction of advertising so that gambling products are not aimed at, or are particularly attractive to children). The licensing authority will therefore consider, as suggested in the Gambling Commission's Guidance, whether specific measures are required at particular premises, with regard to this licensing objective. Appropriate measures may include supervision of entrances / machines, segregation of areas etc.

This licensing authority is also aware of the Gambling Commission Codes of Practice as regards this licensing objective, in relation to specific premises.

As regards the term “vulnerable persons” it is noted that the Gambling Commission does not seek to offer a definition but states that “it will for regulatory purposes assume that this group includes people who gamble more than they want to; people who are gambling beyond their means; and people who may not be able to make informed or balanced decisions about gambling due to a mental impairment, alcohol or drugs.” This licensing authority will consider this licensing objective on a case by case basis.

Conditions - Any conditions attached to licences will be proportionate and will be:
relevant to the need to make the proposed building suitable as a gambling facility;
directly related to the premises and the type of licence applied for;
fairly and reasonably related to the scale and type of premises; and
reasonable in all other respects.

Decisions upon individual conditions will be made on a case by case basis, although there will be a number of measures this licensing authority will consider utilising should there be a perceived need, such as the use of supervisors, appropriate signage for adult only areas etc. There are specific comments made in this regard under some of the licence types below. This licensing authority will also expect the licence applicant to offer his/her own suggestions as to the way in which the licensing objectives can be met effectively.

This licensing authority will also consider specific measures which may be required for buildings which are subject to multiple premises licences. Such measures may include the supervision of entrances; segregation of gambling from non-gambling areas frequented by children; and the supervision of gaming machines in non-adult gambling specific premises in order to pursue the licensing objectives. These matters are in accordance with the Gambling Commission's Guidance.

This authority will also ensure that where category C or above machines are on offer in premises to which children are admitted:

- all such machines are located in an area of the premises which is separated from the remainder of the premises by a physical barrier which is effective to prevent access other than through a designated entrance;
- only adults are admitted to the area where these machines are located;
- access to the area where the machines are located is supervised;
- the area where these machines are located is arranged so that it can be observed by the staff or the licence holder; and
- at the entrance to and inside any such areas there are prominently displayed notices indicating that access to the area is prohibited to persons under 18.

These considerations will apply to premises including buildings where multiple premises licences are applicable.

This licensing authority is aware that tracks may be subject to one or more than one premises licence, provided each licence relates to a specified area of the track. As per the Gambling Commission's Guidance, this licensing authority will consider the impact upon the third licensing objective and the need to ensure that entrances to each type of premises are distinct and that children are excluded from gambling areas where they are not permitted to enter.

It is noted that there are conditions which the licensing authority cannot attach to premises licences which are:

- any condition on the premises licence which makes it impossible to comply with an operating licence condition;
- conditions relating to gaming machine categories, numbers, or method of operation;
- conditions which provide that membership of a club or body be required (the Gambling Act 2005 specifically removes the membership requirement for casino and bingo clubs and this provision prevents it being reinstated; and
- conditions in relation to stakes, fees, winning or prizes.

Door Supervisors - The Gambling Commission advises in its Guidance to Licensing Authorities that if a licensing authority is concerned that a premises may attract disorder or be subject to attempts at unauthorised access (for example by children and young persons) then it may require that the entrances to the premises are controlled by a door supervisor, and is entitled to impose a premises licence to this effect.

Where it is decided that supervision of entrances/machines is appropriate for particular cases, a consideration of whether these need to be SIA licensed or not will be necessary. It will not be automatically assumed that they need to be licensed, as the statutory requirements for different types of premises vary (as per the Guidance, Part 33).

Adult Gaming Centres

This licensing authority will specifically have regard to the need to protect children and vulnerable persons from harm or being exploited by gambling and will expect the applicant to satisfy the authority that there will be sufficient measures to, for example, ensure that under 18 year olds do not have access to the premises.

This licensing authority may consider measures to meet the licensing objectives such as:

- Proof of age schemes
- CCTV
- Supervision of entrances / machine areas
- Physical separation of areas
- Location of entry
- Notices / signage
- Specific opening hours
- Self-exclusion schemes
- Provision of information leaflets / helpline numbers for organisations such as GamCare.

This list is not mandatory, nor exhaustive, and is merely indicative of example measures.

(Licensed) Family Entertainment Centres:

This licensing authority will specifically have regard to the need to protect children and vulnerable persons from harm or being exploited by gambling and will expect the applicant to satisfy the authority, for example, that there will be sufficient measures to ensure that under 18 year olds do not have access to the adult only gaming machine areas.

This licensing authority may consider measures to meet the licensing objectives such as:

- CCTV
- Supervision of entrances / machine areas
- Physical separation of areas
- Location of entry
- Notices / signage
- Specific opening hours
- Self-exclusion schemes
- Provision of information leaflets / helpline numbers for organisations such as GamCare.
- Measures / training for staff on how to deal with suspected truant school children on the premises

This list is not mandatory, nor exhaustive, and is merely indicative of example measures.

This licensing authority will, as per the Gambling Commission's guidance, refer to the Commission's website to see any conditions that apply to operating licences covering the way in which the area containing the category C machines should be delineated. This licensing authority will also make itself aware of any mandatory or default conditions on these premises licences, when they have been published.

Casinos

No Casinos resolution - This licensing authority has not passed a 'no casino' resolution under Section 166 of the Gambling Act 2005, but is aware that it has the power to do so. Should this licensing authority decide in the future to pass such a resolution, it will update this policy statement with details of that resolution. Any such decision will be made by the Full Council.

Bingo premises

This licensing authority notes that the Gambling Commission's Guidance states:

18.4 Licensing authorities need to satisfy themselves that bingo can be played in any bingo premises for which they issue a premises licence. This is a relevant consideration where the operator of an existing bingo premises applies to vary their licence to exclude an area of the existing premises from its ambit and then applies for a new premises licence, or multiple licences, for that or those excluded areas.

This authority also notes the Guidance at paragraph 18.8 regarding the unusual circumstances in which the splitting of a pre-existing premises into two adjacent premises might be permitted, and in particular that it is not permissible to locate sixteen category B3 gaming machines in one of the resulting premises, as the gaming machine entitlement for that premises would be exceeded.

18.6 Children and young people are allowed into bingo premises; however they are not permitted to participate in the bingo and if category B or C machines are made available for use these must be separated from areas where children and young people are allowed.

Betting premises

Betting machines - This licensing authority will, as per the Gambling Commission's Guidance, take into account the size of the premises, the number of counter positions available for person-to-person transactions, and the ability of staff to monitor the use of the machines by children and young persons (it is an offence for those under 18 to bet) or by vulnerable people, when considering the number/nature/circumstances of betting machines an operator wants to offer.

Tracks

This licensing authority is aware that tracks may be subject to one or more than one premises licence, provided each licence relates to a specified area of the track. As per the Gambling Commission's Guidance, this licensing authority will especially consider the impact upon the third licensing objective (i.e. the protection of children and vulnerable persons from being harmed or exploited by gambling) and the need to ensure that entrances to each type of premises are distinct and that children are excluded from gambling areas where they are not permitted to enter.

This authority will therefore expect the premises licence applicant to demonstrate suitable measures to ensure that children do not have access to adult only gaming facilities. It is noted that children and young persons will be permitted to enter track areas where facilities for betting are provided on days when dog-racing and/or horse racing takes place, but that they are still prevented from entering areas where gaming machines (other than category D machines) are provided.

This licensing authority may consider measures to meet the licensing objectives such as:

- Proof of age schemes
- CCTV
- Supervision of entrances / machine areas
- Physical separation of areas
- Location of entry
- Notices / signage
- Specific opening hours
- Self-exclusion schemes
- Provision of information leaflets / helpline numbers for organisations such as GamCare

This list is not mandatory, nor exhaustive, and is merely indicative of example measures.

Gaming machines -Where the applicant holds a pool betting operating licence and is going to use the entitlement to four gaming machines, machines (other than category D machines) should be located in areas from which children are excluded.

Betting machines - This licensing authority will, as per Part 6 of the Gambling Commission's Guidance, take into account the size of the premises and the ability of staff to monitor the use of the machines by children and young persons (it is an offence for those under 18 to bet) or by vulnerable people, when considering the number/nature/circumstances of betting machines an operator proposes to offer.

Applications and plans

The Gambling Act requires applicants to submit plans of the premises with their application, in order to ensure that the licensing authority has the necessary information to make an informed judgement about whether the premises are fit for gambling. The plan will also be used for the licensing authority to plan future premises inspection activity. (See Guidance to Licensing Authorities, para 20.28).

Plans for tracks do not need to be in a particular scale, but should be drawn to scale and should be sufficiently detailed to include the information required by regulations. (See Guidance to Licensing Authorities, para 20.29).

Some tracks may be situated on agricultural land where the perimeter is not defined by virtue of an outer wall or fence, such as point-to-point racetracks. In such instances, where an entry fee is levied, track premises licence holders may erect temporary structures to restrict access to premises (See Guidance to Licensing Authorities, para 20.31).

In the rare cases where the outer perimeter cannot be defined, it is likely that the track in question will not be specifically designed for the frequent holding of sporting events or races. In such cases betting facilities may be better provided through occasional use notices where the boundary premises do not need to be defined. (See Guidance to Licensing Authorities, para 20.32).

This authority appreciates that it is sometimes difficult to define the precise location of betting areas on tracks. The precise location of where betting facilities are provided is not required to be shown on track plans, both by virtue of the fact that betting is permitted anywhere on the premises and because of the difficulties associated with pinpointing exact locations for some types of track. Applicants should provide sufficient information that this authority can satisfy itself that the plan indicates the main areas where betting might take place. For racecourses in particular, any betting areas subject to the “five times rule” (commonly known as betting rings) must be indicated on the plan. (See Guidance to Licensing Authorities, para 20.33).

Travelling Fairs

This licensing authority is responsible for deciding whether, where category D machines and / or equal chance prize gaming without a permit is to be made available for use at travelling fairs, the statutory requirement that the facilities for gambling amount to no more than an ancillary amusement at the fair is met.

The licensing authority will also consider whether the applicant falls within the statutory definition of a travelling fair.

It is noted that the 27-day statutory maximum for the land being used as a fair applies on a per calendar year basis, and that it applies to the piece of land on which the fairs are held, regardless of whether it is the same or different travelling fairs occupying the land. This licensing authority will work with its neighbouring authorities to ensure that land which crosses our boundaries is monitored so that the statutory limits are not exceeded.

Provisional Statements

Developers may wish to apply to this authority for provisional statements before entering into a contract to buy or lease property or land to judge whether a development is worth taking forward in light of the need to obtain a premises licence. There is no need for the applicant to hold an operating licence in order to apply for a provisional statement.

S204 of the Gambling Act provides for a person to make an application to the licensing authority for a provisional statement in respect of premises that he or she:

- expects to be constructed;
- expects to be altered; or
- expects to acquire a right to occupy.

The process for considering an application for a provisional statement is the same as that for a premises licence application. The applicant is obliged to give notice of the application in the same way as applying for a premises licence. Responsible authorities and interested parties may make representations and there are rights of appeal.

In contrast to the premises licence application, the applicant does not have to hold or have applied for an operating licence from the Gambling Commission (except in the case of a track) and they do not have to have a right to occupy the premises in respect of which their provisional application is made.

The holder of a provisional statement may then apply for a premises licence once the premises are constructed, altered or acquired. The licensing authority will be constrained in the matters it can consider when determining the premises licence application, and in terms of representations about premises licence applications that follow the grant of a provisional statement, no further representations from relevant authorities or interested parties can be taken into account unless:

- they concern matters which could not have been addressed at the provisional statement stage, or
- they reflect a change in the applicant's circumstances.

In addition, the authority may refuse the premises licence (or grant it on terms different to those attached to the provisional statement) only by reference to matters:

- which could not have been raised by objectors at the provisional statement stage;
- which in the authority's opinion reflect a change in the operator's circumstances; or
- where the premises has not been constructed in accordance with the plan submitted with the application. This must be a substantial change to the plan and this licensing authority notes that it can discuss any concerns it has with the applicant before making a decision.

Reviews:

Requests for a review of a premises licence can be made by interested parties or responsible authorities; however, it is for the licensing authority to decide whether the review is to be carried-out. This will be on the basis of whether the request for the review is relevant to the matters listed below;

- in accordance with any relevant Code of Practice issued by the Gambling Commission;
- in accordance with any relevant guidance issued by the Gambling Commission;
- reasonably consistent with the licensing objectives; and
- in accordance with the authority's statement of principles.

The request for the review will also be subject to the consideration by the authority as to whether the request is frivolous, vexatious, or whether it will certainly not cause this authority to wish to alter/revoke/suspend the licence, or whether it is substantially the same as previous representations or requests for review. The licensing authority can also initiate a review of a particular premises licence, or a particular class of premises licence on the basis of any reason which it thinks is appropriate.

Once a valid application for a review has been received by the licensing authority, representations can be made by responsible authorities and interested parties during a 28 day period. This period begins 7 days after the application was received by the licensing authority, who will publish notice of the application within 7 days of receipt.

The licensing authority must carry out the review as soon as possible after the 28 day period for making representations has passed. The purpose of the review will be to determine whether the licensing authority should take any action in relation to the licence. If action is justified, the options open to the licensing authority are:-

- (a) add, remove or amend a licence condition imposed by the licensing authority;
- (b) exclude a default condition imposed by the Secretary of State (e.g. opening hours) or remove or amend such an exclusion;
- (c) suspend the premises licence for a period not exceeding three months; and
- (d) revoke the premises licence.

In determining what action, if any, should be taken following a review, the licensing authority must have regard to the principles set out in section 153 of the Act, as well as any relevant representations. In particular, the licensing authority may also initiate a review of a premises licence on the grounds that a premises licence holder has not provided facilities for gambling at the premises. This is to prevent people from applying for licences in a speculative manner without intending to use them.

Once the review has been completed, the licensing authority must, as soon as possible, notify its decision to:

- The license holder;
- The applicant for review;
- The Gambling Commission;
- Any person who has made relevant representations;
- The chief officer of Police;
- Her Majesty's Commissioners for Revenue and Customs.

Gambling Act 2005
New Forest District Council - Statement of Principles

PART C

Permits / Temporary & Occasional Use Notice

Unlicensed Family Entertainment Centre gaming machine permits (Statement of Principles on Permits - Schedule 10 paragraph 7)

Where a premises does not hold a premises licence but wishes to provide gaming machines, it may apply to the licensing authority for this permit. It should be noted that the applicant must show that the premises will be wholly or mainly used for making gaming machines available for use (Section 238).

The Gambling Act 2005 states that a licensing authority may prepare a *statement of principles* that they propose to consider in determining the suitability of an applicant for a permit and in preparing this statement, and/or considering applications, it need not (but may) have regard to the licensing objectives and shall have regard to any relevant guidance issued by the Commission under section 25. The Gambling Commission's Guidance to Licensing Authorities also states: "In its Licensing Authority Statement of Policy, a licensing authorities may include a statement of principles that it proposes to apply when exercising its functions in considering applications for permits.... licensing authorities may want to give weight to matters relating to child protection issues." (24.6)

Guidance also states: "...An application for a permit may be granted only if the licensing authority is satisfied that the premises will be used as an unlicensed FEC, and if the chief officer of police has been consulted on the application....Licensing authorities might wish to consider asking applications to demonstrate:

- a full understanding of the maximum stakes and prizes of the gambling that is permissible in unlicensed FECs;
 - that the applicant has no relevant convictions (those that are set out in Schedule 7 of the Act; and
 - that staff are trained to have a full understanding of the maximum stakes and prizes.
- (24.7)

It should be noted that a licensing authority cannot attach conditions to this type of permit.

Statement of Principles This licensing authority will expect the applicant to show that there are policies and procedures in place to protect children from harm. Harm in this context is not limited to harm from gambling but includes wider child protection considerations. The efficiency of such policies and procedures will each be considered on their merits, however, they may include appropriate measures / training for staff as regards suspected truant school children on the premises, measures / training covering how staff would deal with unsupervised very young children being on the premises, or children causing perceived problems on / around the premises. This licensing authority will also expect, as per Gambling Commission Guidance, that applicants demonstrate a full understanding of the maximum stakes and prizes of the gambling that is permissible in unlicensed FECs; that the applicant has no relevant convictions (those that are set out in Schedule 7 of the Act); and that staff are trained to have a full understanding of the maximum stakes and prizes.

(Alcohol) Licensed premises gaming machine permits - (Schedule 13 paragraph 4(1))

Automatic entitlement: 2 machines

There is provision in the Act for premises licensed to sell alcohol for consumption on the premises to automatically have 2 gaming machines, of categories C and/or D. The premises merely need to notify the licensing authority.

The licensing authority can remove the automatic authorisation in respect of any particular premises if:

- provision of the machines is not reasonably consistent with the pursuit of the licensing objectives;
- gaming has taken place on the premises that breaches a condition of section 282 of the Gambling Act (i.e. that written notice has been provided to the licensing authority, that a fee has been provided and that any relevant code of practice issued by the Gambling Commission about the location and operation of the machine has been complied with);
- the premises are mainly used for gaming; or
- an offence under the Gambling Act has been committed on the premises.

Permit: 3 or more machines

If a premises wishes to have more than 2 machines, then it needs to apply for a permit and the licensing authority must consider that application based upon the licensing objectives, any guidance issued by the Gambling Commission issued under Section 25 of the Gambling Act 2005, and such matters as they think relevant. This may include consultation with Responsible Authorities and submission of plans of the premises showing the location of machines.

This licensing authority considers that "such matters" will be decided on a case by case basis but generally there will be regard to the need to protect children and vulnerable persons from being harmed or being exploited by gambling and will expect the applicant to satisfy the authority that there will be sufficient measures to ensure that under 18 year olds do not have access to the adult only gaming machines. Measures which will satisfy the authority that there will be no access may include the adult machines being in sight of the bar, or in the sight of staff who will monitor that the machines are not being used by those under 18. Notices and signage may also be help. As regards the protection of vulnerable persons, applicants may wish to consider the provision of information leaflets / helpline numbers for organisations such as GamCare.

It is recognised that some alcohol licensed premises may apply for a premises licence for their non-alcohol licensed areas. Any such application would most likely be applied for and dealt with as an Adult Gaming or Family Entertainment Centre premises licence, dependant on the suitability of the premises or category of gaming machines requested.

It should be noted that the licensing authority can decide to grant the application with a smaller number of machines and/or a different category of machines than that applied

for. Conditions (other than these) cannot be attached.

It should also be noted that the holder of a permit must comply with any Code of Practice issued by the Gambling Commission about the location and operation of the machine.

Prize Gaming Permits

The Gambling Act 2005 states that a licensing authority may “prepare a statement of principles that they propose to apply in exercising their functions under this Schedule” which “may, in particular, specify matters that the licensing authority proposes to consider in determining the suitability of the applicant for a permit”.

This licensing authority has prepared a Statement of Principles which is that the applicant should set out the types of gaming that he or she is intending to offer and that the applicant should be able to demonstrate:

- that they understand the limits to stakes and prizes that are set out in Regulations;
- that the gaming offered is within the law
- clear policies that outline the steps to be taken to protect children from harm.

In making its decision on an application for this permit the licensing authority does not need to (but may) have regard to the licensing objectives but must have regard to any Gambling Commission guidance. (Gambling Act 2005, Schedule 14 paragraph 8(3)).

It should be noted that there are conditions in the Gambling Act 2005 with which the permit holder must comply, but that the licensing authority cannot attach conditions. The conditions in the Act are:

- the limits on participation fees, as set out in regulations, must be complied with;
- all chances to participate in the gaming must be allocated on the premises on which the gaming is taking place and on one day; the game must be played and completed on the day the chances are allocated; and the result of the game must be made public in the premises on the day that it is played;
- the prize for which the game is played must not exceed the amount set out in regulations (if a money prize), or the prescribed value (if non-monetary prize); and
- participation in the gaming must not entitle the player to take part in any other gambling.

Club Gaming and Club Machines Permits

Members Clubs and Miners' welfare institutes (but not Commercial Clubs) may apply for a Club Gaming Permit or a Club Machines Permit. The Club Gaming Permit will enable the premises to provide gaming machines (3 machines of categories B, C or D), equal chance gaming and games of chance as set-out in forthcoming regulations. A Club Machine Permit will enable the premises to provide gaming machines (3 machines of categories B, C or D).

Gambling Commission Guidance states: "Members clubs must have at least 25 members and be established and conducted "wholly or mainly" for purposes other than gaming, unless the gaming is permitted by separate regulations. The Secretary of State has made such regulations and these cover bridge and whist clubs. A members' club must be permanent in nature, and established and conducted for the benefit of its members and not as a commercial enterprise. Examples include working men's clubs, branches of Royal British Legion and clubs with political affiliations."

The Commission Guidance also notes that "licensing authorities may only refuse an application on the grounds that:

- (a) the applicant does not fulfil the requirements for a members' or commercial club or miners' welfare institute and therefore is not entitled to receive the type of permit for which it has applied;
- (b) the applicant's premises are used wholly or mainly by children and/or young persons;
- (c) an offence under the Act or a breach of a permit has been committed by the applicant while providing gaming facilities;
- (d) a permit held by the applicant has been cancelled in the previous ten years; or
- (e) an objection has been lodged by the Commission or the police.

There is also a 'fast-track' procedure available under the Act for premises which hold a Club Premises Certificate under the Licensing Act 2003 (Schedule 12 paragraph 10). As the Gambling Commission's Guidance to Licensing Authorities states: "Under the fast-track procedure there is no opportunity for objections to be made by the Commission or the police, and the ground upon which an authority can refuse a permit are reduced." and "The grounds on which an application under the process may be refused are:

- (a) that the club is established primarily for gaming, other than gaming prescribed by regulations under section 266 of the Act
- (b) that in addition to the prescribed gaming, the applicant provides facilities for other gaming; or
- (c) that a club gaming permit or club machine permit issued to the applicant in the last ten years has been cancelled."

There are statutory conditions on club gaming permits that no child uses a category B or C machine on the premises and that the holder complies with any relevant provision of a code of practice about the location and operation of gaming machines.

Temporary Use Notices

Temporary Use Notices allow the use of premises for gambling where there is no premises licence but where a gambling operator wishes to use the premises temporarily for providing facilities for gambling. Premises that might be suitable for a Temporary Use Notice, according to the Gambling Commission, would include hotels, conference centres and sporting venues.

The licensing authority can only grant a Temporary Use Notice to a person or company holding a relevant operating licence, i.e. a non-remote casino operating licence.

The Secretary of State has the power to determine what form of gambling can be authorised by Temporary Use Notices, and at the time of writing this Statement the relevant regulations (SI no 3157: The Gambling Act 2005 (Temporary Use Notices) Regulations 2007) state that Temporary Use Notices can only be used to permit the provision of facilities or equal chance gaming, where the gaming is intended to produce a single winner, which in practice means poker tournaments.

There are a number of statutory limits as regards Temporary Use Notices. The meaning of "premises" in Part 8 of the Act is discussed in Part 7 of the Gambling Commission Guidance to Licensing Authorities. As with "premises", the definition of "a set of premises" will be a question of fact in the particular circumstances of each notice that is given. In the Act "premises" is defined as including "any place".

In considering whether a place falls within the definition of "a set of premises", the licensing authority needs to look at, amongst other things, the ownership/occupation and control of the premises.

This licensing authority expects to object to notices where it appears that their effect would be to permit regular gambling in a place that could be described as one set of premises, as recommended in the Gambling Commission's Guidance to Licensing Authorities.

Occasional Notices: **Use**

The licensing authority has very little discretion as regards these notices aside from ensuring that the statutory limit of 8 days in a calendar year is not exceeded. This licensing authority will though consider the definition of a 'track' and whether the applicant is permitted to avail him/herself of the notice.

MISCELLANEOUS

Rights of appeal and judicial review

New Forest District Council is aware that its decisions may be subject to an appeal in accordance with the provisions of the Act and judicial review. It also recognises that failure to give reasons for a decision may compel a person to appeal. New Forest District Council will:

- give clear and comprehensive reasons for a rejection of an application where there is a requirement in the Act to do so; and
- wherever practicable, as best practice, give clear and comprehensive reasons for all decisions connected to its functions under the Act, regardless of whether there is a requirement under the Act to do so

An appeal has to be commenced by the giving of a notice of appeal by the appellant to the local magistrate' court within a period of 21 days beginning with the day on which the appellant was notified by New Forest District Council of the decision to be appealed against.

Any person who wishes to pursue an appeal is strongly advised to seek independent professional legal advice from a legal advisor who specialises in the law on gambling.

Other matters

In order to ensure that applicants and persons who make representations have the necessary information to be able to do so, the information below will be available on the New Forest District Council web site (www.newforest.gov.uk) or by contacting Licensing Services at New Forest District Council:

- Register of premises licences issued by New Forest District Council
- Fees
- Guidance on how to make an application
- List of responsible authorities and contact details
- Application forms, where appropriate
- Making representations
- Applying for a review of a licence
