

2025/2026 Performance Summary

KPIs are rated RAG (Red, Amber, Green) according to the performance against target.

	On target or above target
	Below and up to 10% deviation from the lower threshold of the target
	Over 10% deviation from the lower threshold of the target
	KPI marked TBC due to lag in data availability, context and an estimated data availability is provided in these cases.
	KPI marked N/A due to performance being outside of our direct control and influence, or data not being collected during period.

Housing and Communities Overview and Scrutiny panel

People: Helping those in our community with the greatest need

NFDC ID NO.1: Percentage of homelessness duty cases successfully prevented

Supporting narrative

2024/5 Q4	Despite the hard work of our teams to prevent homelessness and relieve those experiencing homelessness, it is recognised that this is a challenge due to the limited supply of both social and affordable private rented sector properties, especially family sized homes. To improve these figures, we have invested in training and are recruiting additional Homelessness Prevention Floating Support Workers to assist residents in sustaining tenancies.
2025/6 Q1	Preventing Homelessness remains a challenge with the reducing number of properties available in the Private Sector however a number of suitable properties were released and the team were able to utilise these by supporting applicants with rent in advance loans and deposit scheme.
2025/6 Q2	Prevention of homelessness has always been the priority. Working with private landlords and supporting families at an early stage has seen the prevention of homelessness increase despite the challenging number of private rented properties.
2025/6 Q3	Preventing Homelessness remains a challenge due to demand and affordability in the private sector however we are seeing good rates of prevention by having good access to lettings agents and landlords.

NFDC ID NO.2: Number of households in external emergency accommodation

Supporting narrative

2024/5 Q4	Despite work to prevent and relieve homelessness, it is a significant challenge due to the limited supply of social/affordable private sector properties, especially family sized homes. To improve these figures, we have invested in training and are recruiting 2 Homelessness Prevention Floating Support Workers to assist residents in sustaining tenancies.
2025/6 Q1	Investment continues with the introduction of a Homelessness Prevention Team Leader, to focus on increasing quality, better managed caseload and outcomes. In total the team have increased support by introducing 4 Homelessness Prevention Floating Support Workers, on top of existing 3 Homelessness Prevention Officers to help people find new homes, liaise with landlords, help with rent deposits, and mediate between parties. On top of this we have provided grant funding to start a Homelessness Prevention drop-in service in Totton and continue to work closely with other voluntary sector services. We continue to explore ways to increase prevention services across the district to provide the right advice at the right time and place for the betterment of our communities.
2025/6 Q2	Despite the successes of preventing homelessness, this has yet to feed through to the number of people in EA. In depth work is being undertaken to work with families to source properties in the private sector as well as NFDC owned TA so it is expected that EA numbers will reduce.
2025/6 Q3	This peaked in December however we have seen reductions later in December with the introduction of new TA coming on board. Although, marked as amber, being 1 point above target, the trend from last quarter is positive.

NFDC ID NO.3: Number of households with children under 16 in external emergency shared accommodation over 6 weeks

	2024/5	2025/6			Supporting information

Q4		Q1	Q2	Q3		

Supporting narrative

2024/5 Q4	To reduce the number of households in EA a dedicated officer is tasked with liaising with landlords to identify possible family sized accommodation and to move families as quickly as possible. Performance is in line with target.
2025/6 Q1	Reducing the need to use shared facilities EA for families remains a key commitment. When keeping a family in shared accommodation, we take into consideration their support needs and local networks whilst searching for long term accommodation.
2025/6 Q2	This number of households in shared EA has reduced due to working hard with families to locate private sector properties. There are 7 families in EA shared accommodation currently but under the 6 weeks target.
2025/6 Q3	We are keeping the number of families in shared accommodation low by prioritising using non-shared accommodation for them wherever possible and focussing on seeking private sector accommodation for longer term solutions.

NFDC ID NO.4: Number of Appletree careline services provided to customers

	2024/5	2025/6			Supporting information

2024/5		2025/6				
Q4		Q1	Q2	Q3		

Supporting narrative

2024/5 Q4	52 new customer installations with over 100 services combined during the quarter. Whilst the growth has continued alongside existing customers being retained and upgraded to digital services, this has been impacted by the death of 29 customers and 37 moving from independent to residential/nursing care accommodation, accounting for a combined loss of 130 services. Current team focus on retention and growth, dedicated resources contacting and managing the switchover from analogue to digital services for existing customers. All Appletree careline literature and promotional material has been refreshed and rebranded highlighting the benefits of digital careline units, in particular highlighting the cost savings to clients no longer requiring fixed telephone lines for service delivery.
2025/6 Q1	Appletree careline continues to transition existing careline customers from analogue to digital services, whilst creating opportunities for revenue growth through the attraction of a new customer base. Development of revised promotional material has been created and disseminated across the district, creating partnerships with age related community based services to promote the service locally.
2025/6 Q2	During quarter 2, 102 new services were added. August saw a higher than anticipated cancellations, with 16 clients resulting from death and 11 clients moving into full time residential care settings resulting in the loss of 54 services.
2025/6 Q3	Installations have remained steady with a further 133 existing or new customers having digital careline units installed. A targetted mail drop to all customers is being devised to form part of the customers annual statements to be sent in Mid february. Posters and leaflets have been updated to enhance awareness of the digital offer alongside planning for community events in April. This is to provide awareness raising and marketing of Appletree Careline. From April, the product line is expanding with additional peripheral devices to support people seeking to remain at home and independent.

NFDC ID NO.7: Investment in and rollout of public space CCTV system

	2024/5	2025/6			Supporting information	
	Q4	Q1	Q2	Q3	Target	Monitor towards £80,000

Supporting narrative

2024/5 Q4	Following full handover of the Hardley Depot, A further 10 cameras went live, increasing the total to 28. Fire and security alarms are also live monitored within the main CCTV control room. Electrification works have been confirmed on all proposed public space sites with these being prepared for full camera installation. Terms for a further location on a retail store were agreed in Brockenhurst and a site in Ringwood. Securing these locations provides optimum placement for monitoring whilst negating local disruption.
2025/6 Q1	During the Q1 period, 9 additional cameras have been installed. Additional installations continue to progress. Expenditure has now been confirmed for Q1 as £3,471.48.
2025/6 Q2	In year 24/25 Total expenditure was £66,960.00 for the purchase of cameras and server room upgrades for the increased storage of data. Expenditure in Quarter 2 primarily covers the installation costs for cameras. Quarter 3 has an additional 10 cameras scheduled for installation by November 30th.
2025/6 Q3	Work has continued to enhance cctv coverage across the district. The service is currently working to upgrade the digital incoming line that support the transmission of footage which has a lead time to complete in early April. To ensure camera installations remain on track, ground works and electrification of points continues. This will enable cameras or final fix to be done in quick succession following the upgrade of the line.

NFDC ID NO.8: Number of education and awareness sessions in relation to serious crime

		N/A	N/A	N/A		

Supporting narrative

2024/5 Q4	129 young people participated in a prevention of weapons education programme. Over the past 12 months, weapons prevention education has been delivered to 563 young people within either group or 1-2-1 sessions across the district.
2025/6 Q1	During Q1, safer New Forest provided 3 days training and learning material for 18 employees of youth services, secondary education, colleges and community safety services. This approach aims to create and embed local resources, acting as points of contacts and accredited trainers to deliver weapons prevention training within local education and community based settings. Funding for delivery was supported by a 10k grant obtained from the Office of Police and Crime Commissioner.
2025/6 Q2	Dedicated workshop on weapons, the law, social and medical implications. Educations awareness delived to 280 year 8 students. Delivery was undertaken over a number of sessions with an average group consisting of 30 students. Comparing Year 8 students' age profile with early offenders (13–17) highlights the need for a targeted approach. Delivering education this way reinforces the law and consequences of carrying weapons, reducing the risk of unintentional offences. It also promotes wider discussion among teachers and parents, providing context and relevance for all learners.
2025/6 Q3	Weapons awareness workshops are delivered within educational settings and form part of PSHE. Future sessions will be run in the spring season as part of the academic plan. We are awaiting figures from partners from the criminal justice system who deliver 1-2-1 and group sessions.

NFDC ID NO.9: Number of positive interventions in response to Public Spaces Protection Orders (1 and 2)

2024/5 Q4	Quarter 4 period resulted in 31 reports to services regarding concerns of compliance with the orders with Wednesday being the busiest of days. Direct engagement was held with 195 people, with 180 relating to animals and 15 to fire.
2025/6 Q1	118 reports were received resulting in 554 people being spoken to in relation to the PSPOs, with 146 in relation to fire and 408 to animals. 2 FPNs were issued, both relating to fire. The three highest reported locations during the quarter were Bolton's Bench, Hatchet Pond and Wilverley Plain.
2025/6 Q2	During Q2, 318 members of the public were engaged with by delegated officers in relation to PSPO 1 or 2. During the same period, officers responded to 13 reports of fire related incidents, of this, 4 were fires and 9 relating to BBQ's. 43 reports were in response to the petting or feeding of animals.
2025/6 Q3	PSPO interventions dropped lower than anticipated in apart due to the low season but it is also recognised that partner agencies with delegated authority have been experiencing a period of reduced staff. Forestry England have recruited 4 new assistant rangers who will receive training in the spring in readiness for the re-issuing of the orders.

NFDC ID NO.10: Number of cultural events and activities supported by New Forest District Council

Supporting narrative

2024/5 Q4	5 Projects supported this quarter via SPF are Nightjar, Folio training programme, Folio transition support, Milford on Sea beach event and CODA celebration event. 6 cultural projects were supported by the Community Grants programme in 24/25. 1 project has received CIL funding of £142,000 to improve the access to cultural facilities, locally.
2025/6 Q1	Working with Culture in Common and local Folio Partners we have supported a number of smaller projects around the district. Working in partnership we delivered a series of small commissions which saw a number of activities reach new audiences and ensure that there was a spread of activity across the geographic and demographic communities of the district. A high number of one-off commissioned projects have occurred during the period which is reflected in the final data, these are unlikely to be repeated.
2025/6 Q2	The delivery of small commissioned projects and partnership work with organisations such as ICB, PCNs and parish councils, engaging targeted communities. 12 events and activities during the period.
2025/6 Q3	There have been a number of projects to support different sections of our community including LGBTQI+, rurally isolated areas, and those with health conditions. We also ensured that the routes for the renowned Luke Jerram's Lullaby cycle project visited the underserved communities of the district.

2024/5 Q4	Performance is inline with target.				
2025/6 Q1	Performance is inline with target.				
2025/6 Q2	The impact of the new service is very positive. The reduction in the non-recycled waste and increased the recycling rate for Q2 is based on collection changes in the phase 1 area only (30,000 properties) and can be largely attributed to high food waste recycling tonnages and the impact of restricted general waste capacity. However, waste levels and composition do fluctuate throughout the year so at this stage of the phased roll out it is difficult accurately predict performance levels for Q3 and 4.				
2025/6 Q3	Numbers are expected by mid-March 2026.

Q4	Q1	Q2	Q3

Supporting narrative	
2024/5 Q4	End of year performance exceeds target.
2025/6 Q1	The subscription numbers for GW customers are down from Q4. This may have been impacted by the unusually dry spring and summer months causing a slow growth year. As the new service started in April 2024, Q1 is the point when most people will need to resubscribe. However, because the subscription is now a rolling year service, residents can join whenever they want throughout the year and still get a years service rather than previously have to join in April to receive a full year. Residents may have waited longer to rejoin with less garden waste to dispose of in the early part of the season.
2025/6 Q2	Percentage of residents subscribed to the service remained steady on last quarter, however this is not in line with targeted service growth. This year saw an unusually dry period, which continued from spring throughout summer. This has limited garden growth and in turn may have impacted our resubscription take up and new subscriptions. Additionally the focus on the new service roll out has restricted opportunities for promotion of the Garden Waste Service this year.
2025/6 Q3	The percentage of residents subscribed to the service increased from last quarter. We have an incrementing target for this measure which has also increased from 30% to 31% this quarter. This being below targeted service growth with Place and Sustainability Overview and Scrutiny Panel being presented with additional insight in January 2026, attributing this to low growth in the early part of the year, leading to a late take-up to subscriptions. That pattern is reflected in the latest outturn.

					Q4	Q1 Q2 Q3

Supporting narrative

2024/5 Q4	The reported figure is based on the total of 696 fly-tipping incidents occurring in Q4.
2025/6 Q1	Figure is based on 870 incidents of flytipping which operatives responded to during the quarter which is an increase of 182 from Q4 2024/5. As has been reported to Council, there has been an increase in use of bring sites aligned to the waste roll out. Where this sees residents leaving glass and cardboard outside of the provided containers it is technically classed as a fly tip and is recorded as such. The figure does not relate to an uptick in fly tipping in the more readily defined sense (e.g. building waste/house clearance dumped in laybys/country lanes) and there has been no discernible increase in this aligned to the roll out. There are concerns that are being investigated by our enforcement teams over "commercial" use of our bring sites, which is understood to be a potential byproduct of the roll-out as "commercial" waste can no longer be as easily disguised in residential collections.
2025/6 Q2	The total number of reported incidents of fly-tipping rose to 918 in Q2, which is above target and a notable increase compared to the same period last year (670 in Q2 24/25). The reported figure as above equals the number of incidents per 1000 from both quarters. Ongoing concerns remain from the previous quarter including misuse of bring sites and operatives continue to respond to these issues.
2025/6 Q3	The number of reported fly-tipping incidents decreased from 918 in Q2 to 617 in Q3. This is a cumulative measure that increments over the year. The overall value, with high numbers in Q1 and Q2 is still above target and will likely be above target at the end of the year. The reported figure represents the number of incidents per 1,000 across all three reported quarters, so far. New signage and clearer instructions have been introduced at all bring sites to help address fly-tipping concerns. This has seen fly-tipping at bring sites fall over the last three quarters from 219 in Q1, 182 in Q2 and 116 in Q3. However, data from previous years typically shows increases in Q4 and so this trend requires continued monitoring in Q4 before longer term impacts can be determined.

Q4	Q1	Q2	Q3			

Supporting narrative	
2024/5 Q4	Sickness per FTE has come down since last quarter and continues to come down as can be seen with historical data.
2025/6 Q1	Although sickness days have reduced since the end of last quarter, FTE has increased, resulting in a reported figure in line with previous performance.
2025/6 Q2	Historically, sickness has shown to increase between Q1 and Q2. Although short term sickness has not significantly increased during this period, the increase in the average number of sick days can be attributed to a increase in small number long term sickness cases spanning a period of over 6 months, which can have an impact on overall sickness levels.
2025/6 Q3	The average number of sick days is consistent with Quarter 2 levels and can be attributed to a small number of long term sickness cases spanning a longer period which can have an impact on overall sickness levels. HR continue to work with managers and staff to support a successful and timely return to work.
