## Strategic Site 1: Land to the north of Totton

i. Land to the north of Totton, as shown on the Policies Map is allocated for residential-led mixed use development and open space and will comprise the following:

- At least 1,000 homes, dependent on the form, size and mix of housing provided
- A commercial core west of Pauletts Lane including around five hectares of land for business and employment uses
- A community focal point in a prominent location including ground floor premises suitable for community use
- Contributions to educational provision to include two hectares of land to be reserved for a primary school
- On-site provision of formal public open space

# Site Photos 1

# Site Photos 2

# Site Photos 3

# Site Photos 4

# Proposed Scheme

**Outline application** proposing use of land for up to 93 dwellings:

- 2.3 ha of Alternative Natural Recreational Greenspace
- 0.89 ha of Public open space

Detailed proposals for:

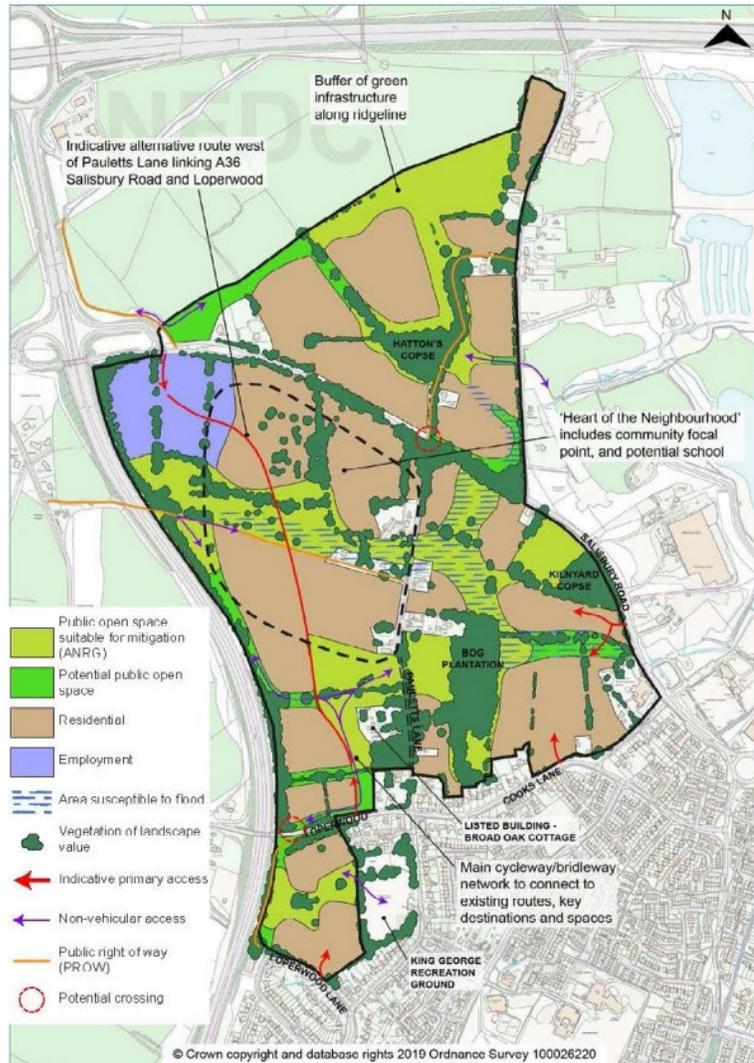

- Access from Salisbury Road
- Dedicated pedestrian and cyclist access from Salisbury Road and Pauletts Lane

Matters **reserved** for future application:

- Appearance- The detailed architecture of the buildings
- Landscape - detailed design and species
- Layout – the detailed arrangement of the buildings and routes across the site
- Scale – the height, width and length of the buildings

# Trees

Veteran Trees. NPPF para.193 - Irreplaceable habitat.

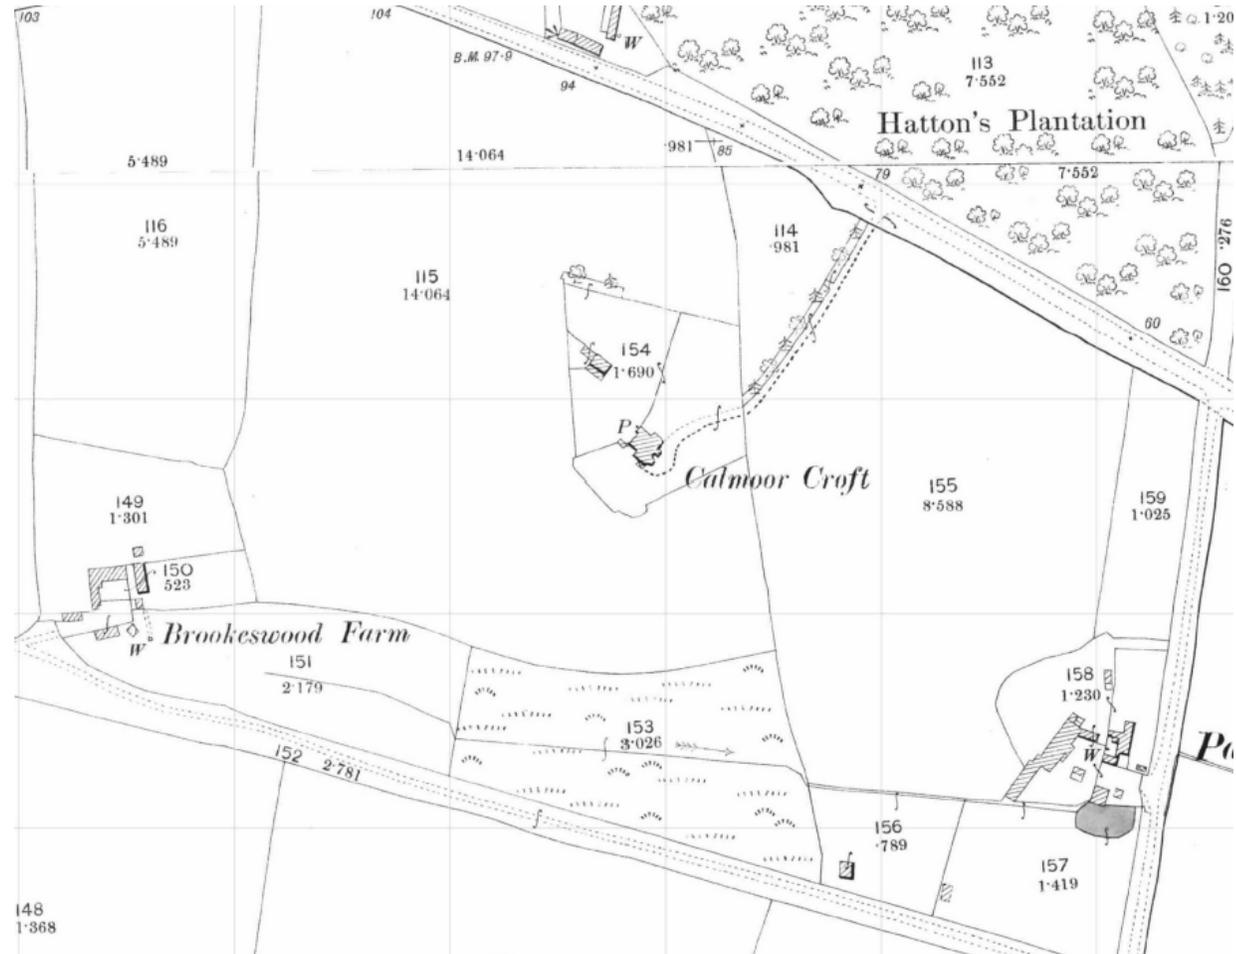

3x Cat B trees to be removed.  
Cat C/U trees and hedge removed for access works

# Landscape Framework

# Heritage. NDHA's

Ordnance Survey  
1869-97

3a 25/10422

# Conclusion

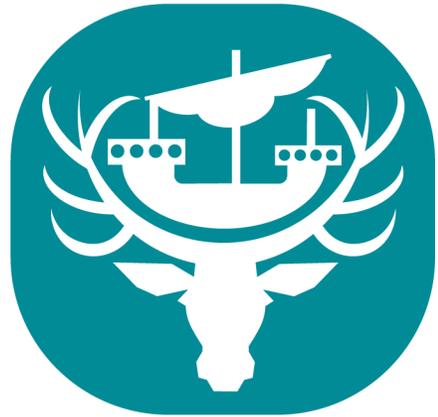

- Minor heritage and landscape harm.
- Outweighed by Economic, Environmental and Social benefits.
- The council cannot demonstrate a 5-year supply of housing land, the proposal comprises sustainable development, contributing to implementation of Local Plan policy SS1, meeting district wide housing needs, including policy compliant affordable housing provision.
- Mitigation for impacts on NF and Solent habitats can be secured, on-site ecology, including irreplaceable habitats and landscape features will be preserved.
- Highway and pedestrian safety and provision of facilities for sustainable forms of travel will be secured.
- The scheme is in broad compliance with the Development plan as required by the Planning and Compulsory Purchase Act.

# Recommendation

- Delegated Authority be given to the DM Service manager to **Grant Planning Permission** subject to securing a S.106 Planning Legal Agreement and conditions

# Recommendation

- Refuse.
- The recreational impacts on protected New Forest habitats would not be adequately mitigated for, therefore there would be an unacceptable increase in recreational pressure detrimental to their conservation objectives and contrary to Local Plan policy ENV1 and the Habitat Mitigation SPD

## Recommendation

- The proposal would not increase the number of pitches above those which could be lawfully implemented
- The proposal would not have any greater impact on the Green Belt or countryside compared to the lawful use
- Approval is recommended with a condition requiring details of landscaping which might otherwise not occur

# Recommendation

Refuse:

Two reasons for refusal :

- 1 - By reason of the introduction of a gabled roof form, coupled with the increase in ridge height and bulky dormer, the proposed extension would result in an intrusive and incongruous form of development that would be harmful to the street scene and detract from the distinctive character of the group of dwellings that provide the context to the application site, as such the proposed development would be contrary to Policy ENV3 of the Local Plan Part 1, the New Milton Neighbourhood Plan and the New Milton Local Distinctiveness Supplementary Planning Document.
- 2 - Insufficient information has been submitted to demonstrate that the proposed extensions can be carried out without adverse impacts upon protected species. In the absence of this information, the Local Planning Authority cannot be satisfied that there would be no adverse impact on protected species or if suitable mitigation measures can be secured. As such the proposed development would therefore be contrary to the provisions of Policy DM2 of the Local Plan Part 2 for New Forest District Council outside of the National Park.

# Recommendation

## **REFUSE**

- Inappropriate development in the Green Belt, resulting on an intensification of the use of the land and harmful impacts on the openness of the Green Belt. No very special circumstances have been demonstrated to justify an exception to the established Green Belt policies.
- By reason of its stark and harsh appearance and proliferation of built form, coupled with the excessive length of existing storage containers on the site, the development would result in an intrusive and discordant form of commercial development that would be harmful to the visual amenities and special qualities of the countryside eroding the rural character of the location and its landscape character.
- Contrary to the provisions of Policies ENV2, ENV3, ENV4, STR1 and STR3 and STR4 of the adopted Local Plan 2016-2036 Part 1: Planning Strategy for the New Forest District outside the New Forest National Park, Policy DM22 of the Local Plan Part 2 of the adopted Local Plan Part 2: Sites and Development Management for the New Forest District Council outside of the New Forest National Park, saved Policy CS21 of the Core Strategy 2009 for the New Forest District Council outside of the New Forest National Park and Chapters 12 and 13 of the National Planning Policy Framework 2024.
