

# Resources and Transformation Overview and Scrutiny Panel

November 2025

## Contents

1. Strategic Asset Management Plan Update
2. Netcall Go Live- Update
3. Transformation Programme Update

## Strategic Asset Management Project Update

**Purpose and Objectives:** The **purpose** of the Strategic Asset Management Plan (SAMP) is to ensure that the Council's property assets are strategically managed to support corporate priorities, deliver value for money, and enable efficient service delivery.

Its **objectives** are to provide a clear framework for managing non-housing assets, optimise their use, support regeneration and environmental goals, and ensure assets are aligned with community needs and future service requirements. Ultimately, it helps NFDC make smarter, more sustainable decisions about its estate.

### Achievements this month:

- Reporting and governance tools have been developed and are now in active use.
- The Asset Challenge Framework document suite (scorecard and e-form) has been completed and distributed for testing.
- Officer recommendations for Public Conveniences improvements have been put forward.

### Next steps:

- Agree next steps involved in the Asset Challenge Framework.
- Begin mapping usage requirements and datasets for the TotalMobile platform.
- Work up scope for Public Conveniences programme.

**Pillar 1:**  
Digital asset management

**Pillar 2:** Asset optimisation in support of corporate plan priorities

**Pillar 3:** Working with partners and communities to promote efficient and effective service delivery

**Pillar 4:** To reduce the environmental impact of council assets

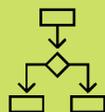

**Pillar 5:** To support economic growth, regeneration and prosperity
