

2025/2026 Performance Summary

KPIs are rated RAG (Red, Amber, Green) according to the performance against target.

On target or above target
Below and up to 10% deviation from the lower threshold of the target
Over 10% deviation from the lower threshold of the target
KPI marked TBC due to lag in data availability, context and an estimated data availability is provided in these cases.
KPI marked N/A due to performance being outside of our direct control and influence, or data not being collected during period.

PEOPLE	ID	KPI Name	RAG	Summary		
	1	Percentage of homelessness duty cases successfully prevented				
	2	Number of households in external emergency accommodation

	2024/5		2025/6			
	Q3	Q4	Q1	Q2		

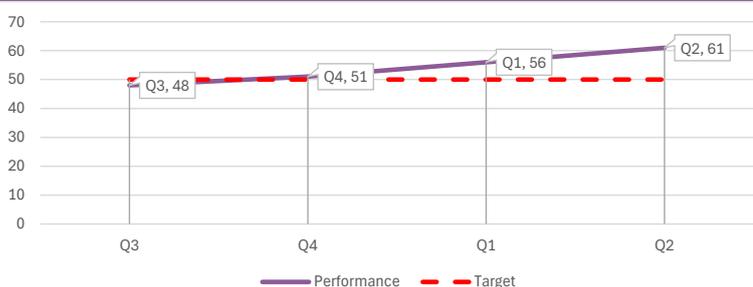

Supporting narrative

2024/5 Q3	The current private rented sector remains challenging, with several factors affecting renters. Including the limited number of rental properties, changes to landlord circumstances resulting in sale of the property, increasing demands from letting agents, including rent advanced payments and rent guarantors, all creating barriers and difficulties for potential tenants.
2024/5 Q4	Despite the hard work of our teams to prevent homelessness and relieve those experiencing homelessness, it is recognised that this is a challenge due to the limited supply of both social and affordable private rented sector properties, especially family sized homes. To improve these figures, we have invested in training and are recruiting additional Homelessness Prevention Floating Support Workers to assist residents in sustaining tenancies.
2025/6 Q1	Preventing Homelessness remains a challenge with the reducing number of properties available in the Private Sector however a number of suitable properties were released and the team were able to utilise these by supporting applicants with rent in advance loans and deposit scheme.
2025/6 Q2	Prevention of homelessness has always been the priority. Working with private landlords and supporting families at an early stage has seen the prevention of homelessness increase despite the challenging number of private rented properties.

NFDC ID NO.2: Number of households in external emergency accommodation

	2024/5		2025/6			
	Q3	Q4	Q1	Q2		

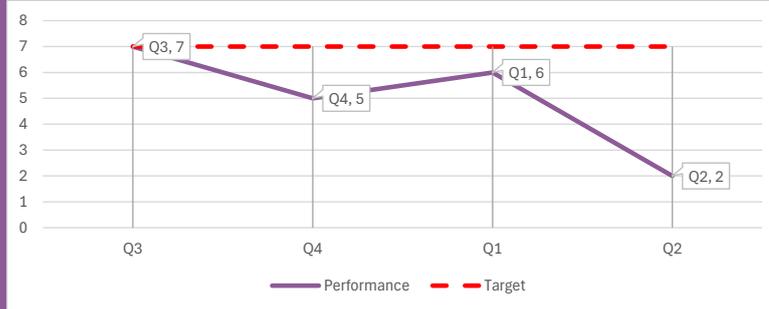

Supporting narrative

2024/5 Q3	Significant due to increasingly larger families often with complex needs and affordability of private accommodation.
2024/5 Q4	Despite work to prevent and relieve homelessness, it is a significant challenge due to the limited supply of social/affordable private sector properties, especially family sized homes. To improve these figures, we have invested in training and are recruiting 2 Homelessness Prevention Floating Support Workers to assist residents in sustaining tenancies.
2025/6 Q1	Investment continues with the introduction of a Homelessness Prevention Team Leader, to focus on increasing quality, better managed caseload and outcomes. In total the team have increased support by introducing 4 Homelessness Prevention Floating Support Workers, on top of existing 3 Homelessness Prevention Officers to help people find new homes, liaise with landlords, help with rent deposits, and mediate between parties. On top of this we have provided grant funding to start a Homelessness Prevention drop-in service in Totton and continue to work closely with other voluntary sector services. We continue to explore ways to increase prevention services across the district to provide the right advice at the right time and place for the betterment of our communities.
2025/6 Q2	Despite the successes of preventing homelessness, this has yet to feed through to the number of people in EA. In depth work is being undertaken to work with families to source properties in the private sector as well as NFDC owned TA so it is expected that EA numbers will reduce.

NFDC ID NO.3: Number of households with children under 16 in external emergency shared accommodation over 6 weeks

RAG Status						
	2024/5		2025/6			
	Q3	Q4	Q1	Q2		

Supporting narrative	
2024/5 Q3	EA for households with children is only used when no other accommodation is available in the location that the family needs. Moving families in to accommodation with no shared facilities remains a priority. We must consider the needs of the family when seeking accommodation including school/education, doctor or health facilities, family support networks, employment factors or other complex needs.
2024/5 Q4	To reduce the number of households in EA a dedicated officer is tasked with liaising with landlords to identify possible family sized accommodation and to move families as quickly as possible. Performance is in line with target.
2025/6 Q1	Reducing the need to use shared facilities EA for families remains a key commitment. When keeping a family in shared accommodation, we take into consideration their support needs and local networks whilst searching for long term accommodation.
2025/6 Q2	This number of households in shared EA has reduced due to working hard with families to locate private sector properties. There are 7 families in EA shared accommodation currently but under the 6 weeks target.

NFDC ID NO.4: Number of Appletree careline services provided to customers

	2024/5		2025/6		Supporting information	
	Q3	Q4	Q1	Q2	Target	Desired DOT

RAG Status						
	2024/5		2025/6			
	Q3	Q4	Q1	Q2		

Supporting narrative	
2024/5 Q3	Although 52 new customers joined careline services in October and November, over the same period we experienced higher monthly averages in cancellations of 59 clients, with a reduction of 118 services. Of these 59 clients, 21 were deceased and 31 moved into full time residential or nursing care placements. This is in line with seasonal expectations i.e. flu etc. December in comparison, between cancellations and installations saw a positive uplift of 8 services overall.
2024/5 Q4	52 new customer installations with over 100 services combined during the quarter. Whilst the growth has continued alongside existing customers being retained and upgraded to digital services, this has been impacted by the death of 29 customers and 37 moving from independent to residential/nursing care accommodation, accounting for a combined loss of 130 services. Current team focus on retention and growth, dedicated resources contacting and managing the switchover from analogue to digital services for existing customers. All Appletree careline literature and promotional material has been refreshed and rebranded highlighting the benefits of digital careline units, in particular highlighting the cost savings to clients no longer requiring fixed telephone lines for service delivery.
2025/6 Q1	Appletree careline continues to transition existing careline customers from analogue to digital services, whilst creating opportunities for revenue growth through the attraction of a new customer base. Development of revised promotional material has been created and disseminated across the district, creating partnerships with age related community based services to promote the service locally.
2025/6 Q2	During quarter 2, 102 new services were added. August saw a higher than anticipated cancellations, with 16 clients resulting from death and 11 clients moving into full time residential care settings resulting in the loss of 54 services.

Q4	£66,000
Q1	£3,471.48
Q2	£20,075.73

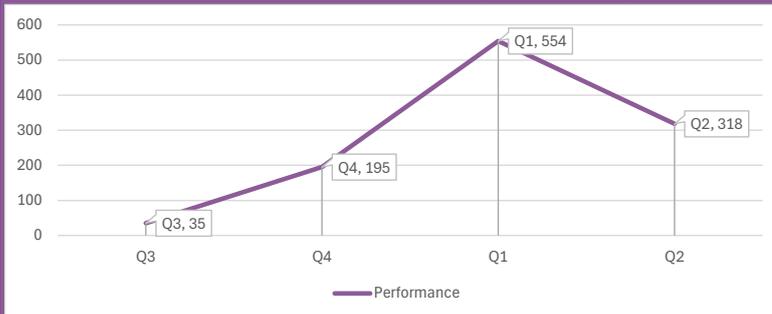

Supporting narrative	
2024/5 Q3	The installation plan over Q3 has enabled a partnership to be developed with a large retail store, allowing siting of cameras on their buildings, simplifying the installation process and reducing costs. This will cover locations including Holbury, Bransgore and Fordingbridge. Additional locations have been secured in Fawley, Gangwarily and Ashley. 17 cameras from the Hardley depot have interlinked with the CCTV control room and it is anticipated a further 10 live monitored cameras will be installed by end of January.
2024/5 Q4	Following full handover of the Hardley Depot, A further 10 cameras went live, increasing the total to 28. Fire and security alarms are also live monitored within the main CCTV control room. Electrification works have been confirmed on all proposed public space sites with these being prepared for full camera installation. Terms for a further location on a retail store were agreed in Brockenhurst and a site in Ringwood. Securing these locations provides optimum placement for monitoring whilst negating local disruption.
2025/6 Q1	During the Q1 period, 9 additional cameras have been installed. Additional installations continue to progress. NEW - Expenditure has now been confirmed for Q1 as £3,471.48.
2025/6 Q2	In year 24/25 Total expenditure was £66,960.00 for the purchase of cameras and server room upgrades for the increased storage of data. Expenditure in Quarter 2 primarily covers the installation costs for cameras. Quarter 3 has an additional 10 cameras scheduled for installation by November 30th.

NFDC ID NO.8: Number of education and awareness sessions in relation to serious crime

Quarter	Performance (Sessions)
Q3	47
Q4	1
Q1	3
Q2	9

Supporting narrative	
2024/5 Q3	47 sessions were delivered to 289 attendees with participant breakdown being 55% male and 45% female.
2024/5 Q4	129 young people participated in a prevention of weapons education programme. Over the past 12 months, weapons prevention education has been delivered to 563 young people within either group or 1-2-1 sessions across the district.
2025/6 Q1	During Q1, safer New Forest provided 3 days training and learning material for 18 employees of youth services, secondary education, colleges and community safety services. This approach aims to create and embed local resources, acting as points of contacts and accredited trainers to deliver weapons prevention training within local education and community based settings. Funding for delivery was supported by a 10k grant obtained from the Office of Police and Crime Commissioner.
2025/6 Q2	Dedicated workshop on weapons, the law, social and medical implications. Educations awareness delivered to 280 year 8 students. Delivery was undertaken over a number of sessions with an average group consisting of 30 students. Comparing Year 8 students' age profile with early offenders (13-17) highlights the need for a targeted approach. Delivering education this way reinforces the law and consequences of carrying weapons, reducing the risk of unintentional offences. It also promotes wider discussion among teachers and parents, providing context and relevance for all learners.

Supporting narrative	
2024/5 Q3	Quarter 3 showed a reduced number of interactions which is anticipated outside of the main holiday season. Of the 35 engagements, 2 related to fire with the remaining 33 relating to petting of animals. No interactions required escalation necessitating the issuing of any fixed penalty notices. Yearly fire data compiled for the Safer New Forest annual strategic assessment on crime and disorder, show incidents of fire have reduced over the past year since the order was approved. Further monitoring will continue to consider all aspects that have contributed to this reduction.
2024/5 Q4	Quarter 4 period resulted in 31 reports to services regarding concerns of compliance with the orders with Wednesday being the busiest of days. Direct engagement was held with 195 people, with 180 relating to animals and 15 to fire.
2025/6 Q1	NEW - 118 reports were received resulting in 554 people being spoken to in relation to the PSPOs, with 146 in relation to fire and 408 to animals. 2 FPNs were issued, both relating to fire. The three highest reported locations during the quarter were Bolton's Bench, Hatchet Pond and Wilverley Plain.
2025/6 Q2	NEW - During Q2, 318 members of the public were engaged with by delegated officers in relation to PSPO 1 or 2. During the same period, officers responded to 13 reports of fire related incidents, of this, 4 were fires and 9 relating to BBQ's. 43 reports were in response to the petting or feeding of animals.

2024/5 Q3	Grant for new project Suitcase Stories in partnership with Forest Forge. Resource and support shared in supporting HCT take over the Folio network and sector support function. Funding allocated to the development of ROAM arts festival, bid writer funded by NFDC at this stage.
2024/5 Q4	5 Projects supported this quarter via SPF are Nightjar, Folio training programme, Folio transition support, Milford on Sea beach event and CODA celebration event. 6 cultural projects were supported by the Community Grants programme in 24/25. 1 project has received CIL funding of £142,000 to improve the access to cultural facilities, locally.
2025/6 Q1	Working with Culture in Common and local Folio Partners we have supported a number of smaller projects around the district. Working in partnership we delivered a series of small commissions which saw a number of activities reach new audiences and ensure that there was a spread of activity across the geographic and demographic communities of the district. A high number of one-off commissioned projects have occurred during the period which is reflected in the final data, these are unlikely to be repeated.
2025/6 Q2	The delivery of small commissioned projects and partnership work with organisations such as ICB, PCNs and parish councils, engaging targeted communities. 12 events and activities during the period.

Our 2016–2036 plan sets a target of 10,420 new dwellings by 2036. By the end of March 2025, 2,361 dwellings have been delivered, including 182 completed in 2024–25. This falls short of the baseline targets for this stage of the plan. This reflects slower-than-anticipated delivery due to economic uncertainty, viability issues, and site-specific challenges. Performance is rated red however members have been regularly briefed on ongoing progress.					Frequency	Annually

2024/5 Q3	-																				
2024/5 Q4	Performance is inline with target.																				
2025/6 Q1	NEW - Performance is inline with target.																				
2025/6 Q2	The impact of the new service is very positive. The reduction in the non-recycled waste and increased the recycling rate for Q2 is based on collection changes in the phase 1 area only (30,000 properties) and can be largely attributed to high food waste recycling tonnages and the impact of restricted general waste capacity. However, waste levels and composition do fluctuate throughout the year so at this stage of the phased roll out it is difficult accurately predict performance levels for Q3 and 4.

Q3	Q4	Q1	Q2																		
Supporting narrative																					
2024/5 Q3	-																				
2024/5 Q4	End of year performance exceeds target.																				
2025/6 Q1	The subscription numbers for GW customers are down from Q4. This may have been impacted by the unusually dry spring and summer months causing a slow growth year. As the new service started in April 2024, Q1 is the point when most people will need to resubscribe. However, because the subscription is now a rolling year service, residents can join whenever they want throughout the year and still get a years service rather than previously have to join in April to receive a full year. Residents may have waited longer to rejoin with less garden waste to dispose of in the early part of the season.																				
2025/6 Q2	Percentage of residents subscribed to the service remained steady on last quarter, however this is not in line with targeted service growth. This year saw an unusually dry period, which continued from spring throughout summer. This has limited garden growth and in turn may have impacted our resubscription take up and new subscriptions. Additionally the focus on the new service roll out has restricted opportunities for promotion of the Garden Waste Service this year.

		Q3	Q4	Q1	Q2	
Supporting narrative						
2024/5 Q3	The reported figure is based on the total of 502 fly-tipping incidents occurring in Q3.					
2024/5 Q4	The reported figure is based on the total of 696 fly-tipping incidents occurring in Q4.					
2025/6 Q1	Figure is based on 870 incidents of flytipping which operatives responded to during the quarter which is an increase of 182 from Q4 2024/5. This is a revised metric, to more closely reflect the councils desire to tackle fly tipping as an issue across the forest. After a period of review it was felt appropriate to lower the threshold and make the metric more challenging, given understandable concern over the issue. As has been reported to Council, there has been an increase in use of bring sites aligned to the waste roll out. Where this sees residents leaving glass and cardboard outside of the provided containers it is technically classed as a fly tip and is recorded as such. The figure does not relate to an uptick in fly tipping in the more readily defined sense (e.g. building waste/house clearance dumped in laybys/country lanes) and there has been no discernible increase in this aligned to the roll out. There are concerns that are being investigated by our enforcement teams over "commercial" use of our bring sites, which is understood to be a potential byproduct of the roll-out as "commercial" waste can no longer be as easily disguised in residential collections.					
2025/6 Q2	The total number of reported incidents of fly-tipping rose to 918 in Q2, which is above target and a notable increase compared to the same period last year (670 in Q2 24/25). The reported figure as above equals the number of incidents per 1000 from both quarters. Ongoing concerns remain from the previous quarter including misuse of bring sites and operatives continue to respond to these issues.

Q3	Q4	Q1	Q2			

Supporting narrative	
2024/5 Q3	Whilst we are always finding ways to reduce sickness and absence levels to meet our targets, this is of largely out of our direct control. Every step is taken to be satisfied that sickness absence is genuine, that sickness is reducing and that we are managing sickness effectively to keep this figure reducing. HR work closely with managers to apply our policies effectively to manage sickness.
2024/5 Q4	Sickness per FTE has come down since last quarter and continues to come down as can be seen with historical data.
2025/6 Q1	Although sickness days have reduced since the end of last quarter, FTE has increased, resulting in a reported figure in line with previous performance.
2025/6 Q2	Historically, sickness has shown to increase between Q1 and Q2. Although short term sickness has not significantly increased during this period, the increase in the average number of sick days can be attributed to a increase in small number long term sickness cases spanning a period of over 6 months, which can have an impact on overall sickness levels.
